MEDIATECH RELEASES ENHANCED BUTTONMATE PRODUCT

Holly Hill, FL, January 10, 2006 -- Mediatech has announced a low cost version of their popular ButtonMate control system interface.

Released as the ButtonMate Lite, it provides an “all-in-one” solution for small control environments. The ButtonMate Lite can also be integrated with other Mediatech ButtonMate and/or ControlMate products for more powerful control systems. Features include: 3 selectable device output buttons (PC, DVD, VCR), 36 discreet command string locations, 1 configurable Serial Port, 2 IR Ports with multiple IR emitter capability, and a built-in IR learner with 64 memory locations. The compact package fits into a standard single-gang electrical box opening for easy wall or surface mounting. The ButtonMate Lite comes with a standard screened face.

A cost-effective solution for budget-minded classroom and/or presentation room requirements, the ButtonMate Lite includes a configuration utility that allows end users to configure it without complex proprietary programming. As a stand-alone control system, the ButtonMate Lite is a low cost and powerful solution. The ButtonMate Lite has a manufacturer’s list price of \$375.

Headquartered in Holly Hill, Florida, Mediatech is a privately held enterprise principally engaged in the research, design, development and manufacture of advanced presentation and control systems, products and services.
