

## MT-400, SchoolMate Lectern

**PART#**  
**MT-400** ..... **MSRP**  
**\$2,495**

### DESCRIPTION

The MT-400 shell is a low cost lectern for those users who wish to add their own internal cabling and self-integrate their own systems and devices. It consists of:

- Hardwood Veneer (Natural Maple) Cabinet and Fittings
- Lockable and Removable Front Access Panel
- Lockable Doors
- Single "Flip-and-Store" LCD Monitor Mount
- Retractable Keyboard/Mouse Tray
- Single flip-up side shelf

### A&E SPECIFICATIONS

The lectern shall be capable of holding the following equipment: (at a minimum):

- 2 ea PCs with keyboard and mouse
- DVD Player
- VCR
- Document Camera
- Up to 19" LCD video display technology

Additional Configuration Requirements:

- The lectern shall have a retractable keyboard tray wide enough to accommodate a computer keyboard and mouse
- The lectern shall provide a side shelf capable of supporting a Document Camera or other playback media up to 35 lbs.
- The lectern shall provide a monitor mount that adheres to VESA standard mounting requirements (75 and 100mm) and can be flipped down and locked to provide a flat work surface when the monitor is not in use.
- The front of the lectern shall be removable to allow for maintenance access.
- The front access hatch of the lectern shall be lockable using the lectern key.
- The lectern shall provide two equipment storage areas; one area shall provide enough space for two mid tower PC's and the other area shall allow for adjustable shelving or 19" rack rails for mounting equipment.
- The lectern shall provide equipment access via two locking wood doors
- The lectern shall be typically constructed of natural Florida Maple ¾" furniture grade hardwood core veneer.
